

Surgical hand gel with Aloe vera

Tried and trusted for more than 15 years, independently tested to BSEN1276 and BSEN1500 and AFNOR, economical to use and with enhanced skin-moisturising properties.

Performance focus

Cutting-edge research and development, combined with independent testing, ensures **Bioguard surgical hand gel with Aloe vera** is truly effective for use across the whole spectrum of professional healthcare environments.

Our intensive focus on performance delivers a product which is:

- **POWERFULLY EFFECTIVE** - Independently tested to British and European Standards BSEN1276 and BSEN1500, and AFNOR. For more details, please refer to our Independent Test and Safety Information CD
- **NON-HAZARDOUS** - Conforming to the latest health and safety legislation. For more details, please refer to our Independent Test and Safety Information CD.
- **USER FRIENDLY** - Contains cosmetic-grade skin conditioners and moisturisers, plus Aloe Vera, to safeguard users' hands from irritation or sensitisation.
- **TIME AND LABOUR SAVING** - The combined cleaning and disinfection action removes the need for separate products.
- **IDEAL FOR HIGH-RISK ENVIRONMENTS** - The professionals' choice since the early 1990s; widely used in clinical facilities, including mortuaries and testing labs.
- **FLEXIBLE AND CONVENIENT** - Can be used as a standalone hand decontaminant in situations where clean water is not available for washing.
- **ENVIRONMENTALLY FRIENDLY** - Proven by independent audits to be non-toxic, biodegradable and non-accumulative in the eco-system. No special procedures are required for product disposal or in case of spillage.
- **ECONOMIC IN USE** - Superior cleaning action means you use up to 30% less, when compared to rival products.

Client testimonials

"Bioguard surgical hand gel does not irritate or sensitise my skin, unlike other surgical gels. I use less than with the alternative product I used previously, as it's more effective at cleaning my hands"

General practitioner

"Bioguard surgical gel with Aloe vera is convenient to use when I visit clients. I can quickly disinfect my hands and it also doesn't irritate my skin, unlike other gels"

First-aid trainer
